

RENATO FERREIRA ORDONHO

Frontend Software Engineer (React, TypeScript, Vue.js)

Campina Grande, Brazil | +55 (83) 99885-0292 | renatoordnho@gmail.com

LinkedIn | GitHub

Open to remote international opportunities | Experience working in distributed teams

PROFESSIONAL SUMMARY

Frontend Software Engineer with **5+ years of experience** building scalable web applications using **React, TypeScript, and Vue.js**. Specialized in **component-based architecture, performance optimization, and data-driven interfaces** for enterprise environments.

Proven track record delivering **20+ enterprise applications**, improving performance by **up to 30%**, and reducing legacy codebases by **60%**. Experience integrating **REST APIs, headless CMS (Strapi)**, and **AI-powered features using LLMs** such as GPT-4 and Claude, including **RAG pipelines** and **LangChain**.

TECHNICAL SKILLS

Frontend: React, Vue.js (2/3), TypeScript, JavaScript (ES6+), HTML5, CSS3, SAPUI5, SAP Fiori

Backend: Node.js, NestJS

APIs: REST APIs, API Integration, GraphQL (basic)

Databases: PostgreSQL, MongoDB, MariaDB

AI & LLM: RAG (Retrieval-Augmented Generation), LangChain, GPT-4, Claude, Prompt Engineering

Tools: Git, CI/CD (GitLab), Agile (Scrum), Figma

Concepts: Component-Based Architecture, Responsive Design, Performance Optimization, Cross-Browser Compatibility

PROFESSIONAL EXPERIENCE

chReactive

Aug 2022 – Present

Frontend Software Engineer (SAP Fiori / SAPUI5) | Remote

- Delivered **20+ SAP Fiori (SAPUI5) applications** for enterprise HR systems used by organizations with **5,000–10,000+ employees**.
- Improved frontend performance by **~30%** by optimizing API calls, implementing client-side caching, and improving data flow.
- Reduced authentication latency by eliminating redundant API calls, removing **~1 second delay per request**.
- Led frontend refactoring initiatives, removing legacy SAP code and reducing codebase size by **~60%**.
- Built reusable component libraries and standardized UI patterns to support scalable frontend architecture.
- Applied design tokens for colors, spacing, and typography to ensure UI consistency across enterprise applications.
- Implemented **CI/CD pipelines (GitLab)**, enabling **30+ deployments per week** and reducing manual deployment errors.
- Collaborated with backend teams to integrate REST APIs and deliver scalable, data-driven applications.

Você Azul

Jan 2023 – Mar 2025

Software Engineer (Frontend / Full-Stack) | Remote

- Developed frontend applications using **React and Vue.js**, integrating backend services for a debt management platform.
- Automated financial workflows, reducing manual operational work by **~70%** through scheduled jobs and system-driven processes.
- Implemented notification systems (WhatsApp, SMS, and email), reducing API costs by **~\$150/month** through optimization.
- Built features for automated debt registration, agreement generation, and payment processing across multiple methods.
- Translated Figma designs into responsive, production-ready UI components.
- Delivered end-to-end features from frontend implementation to backend integration and deployment.

Jornio_

Feb 2022 – Aug 2022

Software Engineer (Frontend / Web Platforms) | Remote

- Built frontend applications using **Vue.js and React with TypeScript**, focusing on component-based architecture.
- Developed AI-powered features using **GPT-3**.
- Designed prompt engineering strategies to improve response accuracy and relevance.
- Improved backend performance by reducing API response times from **17s to 11s** through optimized data filtering.
- Built and integrated **headless CMS solutions using Strapi** for dynamic content management.
- Integrated third-party services including OpenAI, Google Ads, Facebook Ads, and Google Analytics.
- Supported AWS-based environments for scalable deployment.

Influu

Mar 2021 – Feb 2022

Frontend Software Engineer | Remote

- Developed dashboards and marketing platforms using **React, Vue, and Node.js** for **300+ influencers**.
- Improved Google PageSpeed scores from **65 to 98** through frontend performance optimization.
- Increased organic traffic by **~15%** through SEO improvements in collaboration with marketing teams.
- Translated Figma designs into pixel-perfect, responsive UI components.
- Built responsive interfaces optimized for **Core Web Vitals** and user experience.

Freelancer

Jan 2021 – Mar 2021

Frontend Developer

- Developed responsive web applications using **React, JavaScript, HTML5, and CSS3**.
- Improved page load performance by up to **30%** through frontend optimization techniques.
- Integrated REST APIs and built reusable UI components.

EDUCATION

Postgraduate Degree in Software Engineering — Faculdade Metropolitana (2025)**Master's Degree in Physics** — UFCG (2018–2020)**Bachelor's Degree in Physics** — UEPB (2014–2018)**CERTIFICATIONS**

SAP Certified Development Associate – SAP Fiori Application Developer**Data Science & Visualization** — Alura

Python for Data Science — Alura
